Education

College – De La Salle University Manila   Manila, Philippines
Bachelor of Science in Computer Science Major in   Expected Graduation Date: December 2025
Software Technology

Senior High School – Far Eastern University Manila   Manila, Philippines
Science, Technology, Engineering, and Mathematics   Graduation Date: July 2021
(STEM)
Graduated With Honors

Experience

Front-End Development Experience:
- Created the proposed Aquinas School's administration website, specifically the front-end interface with Handlebars templating engine.
- Implemented design concepts into functional UI components using HTML, Handlebars, CSS, and JavaScript.
- Worked closely with designers and back-end developers to ensure smooth integration and consistency across the website.
- This project fulfills requirements for the CSSWENG or Software Engineering program, providing hands-on experience in software development and project management.

Back-End Development Experience:
- Currently serving as a back-end developer for an E-commerce site project.
- Developed server-side logic using Node.js, Express.js, and MongoDB to power website functionality.
- This project fulfills requirements for the STSWENG or Advanced Software Engineering program, providing hands-on experience in software development and project management.
